

Zone DPs Refuse Iron Curtain Homes

FRANKFURT, Jan. 4 (UP)—Crammed into American-occupied Germany today are more than 200,000 displaced persons who refuse to return to their homelands behind the "Iron Curtain."

Thirty-two months after V-E Day, another 100,000 are just as determined to leave Germany soon and forever. These are the Jews, the overwhelming majority of whom aim for Palestine. These figures are taken from a 1947 year-end report, issued by the Preparatory Commission of the International Refugee Organization, covering operations in the U. S. Zone.

France Shifts Control Over Saar Area

PARIS, Jan. 4 (AP)—Authorized sources said yesterday that "France has abandoned the direct administration" of the Saar in changing the title of her governor there, Col. Gilbert Grandval to that of French high commissioner.

Grandval's job, it was stated, is changed from one of administering the territory to "supervising the administration, which is turned over to the Saarlanders themselves."

The same source said France, however, is maintaining her claims to ownership of the Saar's coal mines, which are theoretically the property of the non-existent German state. The French are now administering the coveted mines, as they did for 15 years under League of Nations auspices until the Saar voted to return to Germany in a 1935 plebiscite.

In a judicial agreement just signed, French economic and financial jurisdiction was extended to the Saar territory. A mixed French-Saar Court of Appeals was created, subject to the Court of Cassation in Paris. Frenchmen living in the Saar were given the same rights in court as they enjoy in France.

Buckley admitted five previous convictions in the United Kingdom. His sentence was suspended for seven days on condition that he leave Germany immediately and undertake not to return to the British Zone for five years.

Social Democrats Ask 'Trial' Of Nazi 'Anti-Semitic' Film

HAMBURG, Jan. 4 (AP)—German Social Democrats have demanded that a German film be put on trial before a jury of prominent local citizens. The film is "Jew Sues" made by Goebbels' orders in 1939. The charge is anti-Semitism.

The audience, composed of politicians, trade unionists and others, would be invited to vote on the film, a Social Democrat spokesman said.

The spokesman said the object of

such a vote would be to clear up the controversy over recent exoneration by a denazification panel of the film's director, Veit Harlan. Several organizations, including the Social Democrats, the League of Victims of Nazi Persecution and denazification officials themselves protested the acquittal. Harlan claimed his film was "factual" and not anti-Semitic in intent.

The city council is considering the Social Democrat request.

The report lists 326,588 persons still classified as displaced. Of these, 203,628 had prewar homes in what is now Russian-dominated territory.

Another 79,868 are made up of Balts from Estonia, Latvia and Lithuania.

Russians themselves total only 2,709. Displaced persons from other Russian satellite areas include: Yugoslavia, 4,940; Bulgaria, 25; Czechoslovakia, 126; Czech-Ukrainian, 206; Finland, 3; Hungary, 94; Romania, 216. There are also several hundred Germans and Austrians under PCIRO jurisdiction in Germany.

Two-thirds of the zonal DPs are concentrated in Bavaria. This applies also to the Jews. Of the 111,046 zonal total, 63,730 live in this province. There are more than 100 Jewish communities, the largest with 5,652 residents at Pocking in eastern Bavaria.

In addition to the above, PCIRO still carries on its displaced lists citizens of more than 40 nations, including the U. S., Britain, Canada, Argentina, Australia, Chile, Colombia, Ecuador, Guatemala, Mexico, Panama, China, Turkey, Saudi Arabia, Iran, Iraq and Lebanon.

Air Observers Trained In New Trieste Course

TRIESTE, Jan. 4 (S&S)—Capt. Ejner J. Fulsang, Jr., of Homewood, Ill., who commands TRUST's tiny airstrip, has initiated an aerial observation course for six American officers and one British officer.

The course planned and developed by Fulsang carries no credit but was designed to develop air observers among TRUST personnel. It consists of two hours' ground work and 15 hours in the air. At its completion students are expected to understand air reconnaissance and be sufficiently familiar with flying so they could land a plane should the need arise.

Aiding Fulsang as instructors are the field's other two pilots, Lt. Peon L. Bobo, of Atlanta, and Lt. James L. Littell, of Burdeen, Kan.

The first group of students, nearly all of whom are former artillery officers, consists of Maj. Leonard Shannon, of Wichita, Kan.; Capt. Lloyd Highsmith, of Lawton, Okla.; Lt. Ralph Henderson, of Chickasha, Okla.; Lt. Howard Smith, of Marietta, Ohio; Lt. Edward Gammon, of East St. Louis, Ill.; and Lt. Randall Pratt, of Plymouth, Conn.

Lt. Freddie Wolstancroft, of Blackpool, Lancashire, is the representative of British Troops.

Neither Did S&S

PARIS, Jan. 4 (S&S)—Folies Bergere chorus cuties never realized *The Stars and Stripes* had so many photographers, nor for that matter did *The Stars and Stripes*.

A former *Stripes* artist, now working in Paris, told one shapely mademoiselle while sketching her backstage that he used to be with the soldier newspaper. The skeptical reply was:

"Oh, you too. If I've posed for one American photographer or artist I've posed for 500, and they all said they were *Stars and Stripes* men. You know I think the American Army and not the Folies ought to start paying us girls."

BREMERHAVEN, Jan. 4 (S&S)—Bremerhaven Port of Embarkation teletype station is near completion here and is expected to begin operation within the next several weeks, port officials announced today.

buildings were constructed to house the unit.

Only nonrestricted messages requiring speedy transmission will be handled by the new station, which will supplement BPE's wire teletypes.

Sirens Lure Workers

FRANKFURT, Jan. 4 (UP)—Germany's campaign to enlist Bavarians for work in Ruhr coal mines has been given an unwitting assist by women who lure young Bavarian boys to share their Ruhr apartments for extra meat and potatoes, the Rhein Neckar Zeitung reported today.

"Loose and frivolous women," offer these young men the opportunity of sharing their apartments in return for extra rations which German miners receive, the paper said, Miners get 4,000 calories a day compared with the official 1,550 for other Germans.

Rightist Bloc Call Parley of Six Nations

By TOM REEDY

MUNICH, Jan. 4 (AP)—A campaign to organize anti-Communist political leaders of all Western Europe into a solid bloc has been opened by the conservative part of a half dozen countries, it was learned here yesterday.

Top spokesmen of all the so-called "Christian" parties have been invited to a conference in Luxembourg on Jan. 30 to draft an international program.

France, Italy, Belgium, Denmark, Switzerland and Germany will be represented at the meeting. Other nations have not been listed, certain to be represented.

Kaiser on List

Invitations went out from French group backed by the Popular Republican Movement.

Germany will be represented by Jakob Kaiser, co-chairman of Christian Democratic Union in Soviet Zone; Dr. Joseph Muellner, Christian Socialist Union chairman in Bavaria, and Dr. Konrad Adenauer, CSU leader in the British Zone.

Mueller said the planned conference is intended simply to solidify parties that espouse the same political doctrines.

The fact is, though, that various factions involved all avowed anti-Communist and many cases closely linked with the Church.
